Leica DISTO™ D2

Many functions – long range

Multifunctional end piece

Whether you are taking measurements from corners, grooves or edges, with the multifunctional end piece you can always accurately position the Leica DISTO™ D2. The position of the end piece is automatically detected and taken into account. This prevents expensive measuring errors.

Versatile thanks to useful measuring functions

Functions such as addition and subtraction, area and volume calculations make every measurement task child's play. The instrument stores the last 10 measurement results.
