

Hondex™ Digital Depth Sounder

Measure the depth of any body of water with this portable digital depth sounder.

Model Number -90100

MPN: SM5

UPC: 657586050006

UNSPSC: 41114303

Minimum Depth: 1.8' (0.6m). Maximum Depth: 260' (79m). Accuracy: $\pm 1\%$. Frequency: 200 KHz with a 24° beam angle. Backlight: Filament light. Dimensions: 1.7" x 7.8".
Weight with battery: 10 oz.

Hondex Digital Depth Sounder

Waterproof to a depth of 150' (50m), this sounder features a built-in transducer and measures depths in feet or meters in a range of 1.8' to 260' (0.6m to 79m). The transducer sends high frequency pulses to the bottom of a body of water where these pulses are reflected back and converted to electrical pulses that are amplified and displayed on the easy-to-read LCD. The seven-digit LCD is backlit for night use. This compact depth sounder transports easily and stores conveniently – it will even slip into a shirt pocket! Powered by a 9V DC dry cell battery (included), the sounder has a battery life of approximately 500 uses and automatically shuts off after 10 seconds. Wrist lanyard included.

Product Notes: • Combination English/Metric Scales or Units.
